BORA Windbreaker

FEATURES:

- Extruded aluminium construction provides excellent durability and resistance to outdoor conditions.
- The aluminium cassette encloses the retracted fabric, protecting it from adverse weather conditions.
- The awning provides a lightweight side screen for terraces, balconies and other non-standard spaces.
- It can also be used as an additional screen alongside terrace awnings and pergolas.
- It provides lateral protection from intense sunlight and wind gusts, enhancing comfort within the outdoor space.
- Three post fixing options are available: installation on a solid surface, on prepared ground or directly to a wall.
- Versions 1 and 2 are equipped with a neodymium magnet that secures and stabilises the front bar against the post.
- A wide selection of awning fabrics allows the screen to be coordinated with the design of the façade, terrace or pergola.
